CIVIL ACTION No.: 1:04-cv-11923  
(DPW)

THEFACEBOOK, INC.,

Counterclaimants,

v.

CONNECTU LLC, CAMERON  
WINKLEVOSS, TYLER WINKLEVOSS, and  
DIVYA NARENDRA,

Counterdefendants.

**DEFENDANTS AND COUNTERCLAIMANTS' RESPONSES TO PLAINTIFF  
AND COUNTERDEFENDANTS' REQUESTS FOR THE PRODUCTION OF  
DOCUMENTS AND THINGS**

Defendants and counterclaimants Mark Zuckerberg and TheFacebook, Inc., and Defendants Eduardo Saverin, Dustin Moskovitz, Andrew McCollum, and Christopher Hughes (collectively "Defendants") hereby respond to requests for the production of documents and things ("Request") by Plaintiff and Counterclaimant Defendant ConnectU

LLC and additional Counterclaim Defendants Cameron Winklevoss, Tyler Winklevoss, and Divya Narendra (collectively "Plaintiff").

**GENERAL RESPONSES AND OBJECTIONS**

1. Defendants have not yet completed investigation and discovery or preparation for trial. It is anticipated that further discovery, independent investigation, legal research, expert consultation and analysis will supply additional facts and documents, add meaning to known fact and establish entirely new factual conclusions and legal contentions, all of which may lead to substantial additions to, changes in, and variations from the responses offered at this time

The following responses are given without prejudice to Defendants' right to produce evidence of any subsequently discovered fact or facts that Defendants may later develop. Accordingly, Defendants reserve the right to change any and all responses given below as additional facts are ascertained, analyses are made, legal research is completed, and contentions are made. The responses below are made in a good faith effort to supply as much factual information as is presently known, but should in no way be used to the prejudice of Defendants in relation to further discovery, research, or analysis.

2. Defendants object to the Request to the extent it seeks information which is not within Defendants' current knowledge, is a matter of public record, is within the files and/or particular knowledge of Plaintiff and/or its agents, or is otherwise equally available to Plaintiff.

3. A statement herein agreeing to produce responsive documents does not mean that responsive documents necessarily exist in the possession, custody, or control of Defendants.

4. To the extent Defendants object to a request as vague and ambiguous such that Defendants are required to speculate on the scope of the request in the context of this action, Defendants may nonetheless respond to such request, giving it a reasonable

interpretation, provided, however, that Defendants shall not be deemed bound by any inconsistent interpretation applied by Plaintiff. Further, Defendants' determination or failure to determine that information may or may not be responsive to a specific request shall not be deemed in any manner an admission by Defendants, and Defendants shall not be deemed bound by any inconsistent interpretation applied by Plaintiff.

5. Defendants object generally to Plaintiff's Requests to the extent that they seek (a) documents protected by the attorney-client privilege; (b) documents prepared in anticipation of litigation or for trial; (c) confidential records or proprietary information; and/or (d) documents otherwise not discoverable within the meaning of Fed. R. Civ. P. 26 and/or 34.

Defendants further object that this request seeks information beyond the scope of a proper request for production of documents, and purports to impose on Defendants an obligation to provide information in the nature of an interrogatory, which has not been properly propounded as an interrogatory, and further exacerbates Plaintiff's use of interrogatories in excess of the number permitted by Rule.

I tried to upload everything to the main server and some things weren't working perfectly so I'll take a look at them tomorrow. Do you want to meet up on Tuesday to go over everything we have? . . . I'll keep you posted as I patch stuff up and it starts to become completely functional", all of the computer program coding and/or other work product corresponding to such statements, as such computer program coding and/or work product existed on December 1, 2003, including but not limited to any and all coding and/or other work product corresponding to, and sufficient to identify what Mr. Zuckerberg meant by, "upload everything to the main server", "some things weren't working perfectly so I'll take a look at them tomorrow", "go over everything we have", and "patch stuff up and it starts to become completely functional", as of December 1, 2003.

I'll do this once I get everything done. I'm still a little skeptical that we have enough functionality in the site to really draw the attention and gain the critical mass necessary to get a site like this to run. And in its current state, if the site does get the type of traffic we're looking for, I don't know if we have enough bandwidth from the ISP you're using to handle the load without some serious image optimization, which will take a few more days to implement. Anyhow, we'll talk about it once I get everything else done", all of the computer program coding and/or other work product corresponding to such statements, as such computer program coding and/or work product existed on January 8, 2004, including but not limited to any and all coding and/or other work product corresponding to, and sufficient to identify what Mr. Zuckerberg meant by, "I've made some changes", "they seem to be working on my computer", "I have not uploaded them to the live site yet though", "I'll do this once I get everything done", "little skeptical that we have enough functionality in the site", "in its current state", and "once I get everything else done", as of January 8, 2004.
